

# Your Tech Career Starts Here!

## Digital Navigators Program: Real Skills, Real Jobs

Get ready to level up! Our no-cost trainings give you the practical tech and career skills you need to break into IT, data center operations, and cybersecurity. Learners are supported by Career Coaches, a dedicated Learner Support team, and continued post-training resources to support success during training and throughout their career journey.

TRAINING TRACK	TARGET INDUSTRY	WHAT YOU'LL LEARN
<b>AI-Enabled IT Support</b> 15 weeks M-F   9 AM-4 PM	Information Technology	Build foundational IT skills enhanced with AI tools for troubleshooting, ticketing, customer support, and system efficiency. Prepare for entry-level tech support roles and earn industry-recognized certifications, including CompTIA A+, Google IT Support Professional Certificate, and Google AI Essentials.
<b>Data Center Technician with AI Tools</b> 16 weeks M-F   9 AM-4 PM	Data Center Operations	Prepare for data center roles involving server maintenance, hardware support, environment monitoring, and workflow optimization using AI-supported tools. Training includes preparation for CompTIA A+, Google IT Support Professional Certificate, OSHA 10-Hour General Industry, and OSHA NFPA 70E certifications.
<b>Cybersecurity Analyst</b> 15 weeks M-F   9 AM-4 PM	Cybersecurity	Develop foundational cybersecurity skills including threat detection, system monitoring, incident response, and the use of AI-assisted security tools. Learners prepare for certifications such as CompTIA CySA+, Google AI Essentials, and Splunk Core Certified Power User.

Qualified learners who complete their training will be placed with High Road Training employer partners, earning \$20 to \$26 per hour based on skills and experience. Internships include roles as Digital Navigators, helping community members improve their digital literacy and access skills.
